Foreword

The 1948 Annual of Central Vocational High School is now committed to the kindly keeping and tender care of this friendly reader. Being largely a record of the Class of '48, the editors realize that it will have a peculiar and special interest for the members of this Class. They have endeavored, however, to arrange the contents of this volume in such a manner as to make it interesting to the casual reader.

Acknowledgements are due to all who have so generously contributed their time and service, as well as to the advertisers and subscribers for their material assistance.

If, in the future years, this Annual may prove to be an appropriate reminder of Central school days, the aims and purposes of its editors will have been fulfilled.

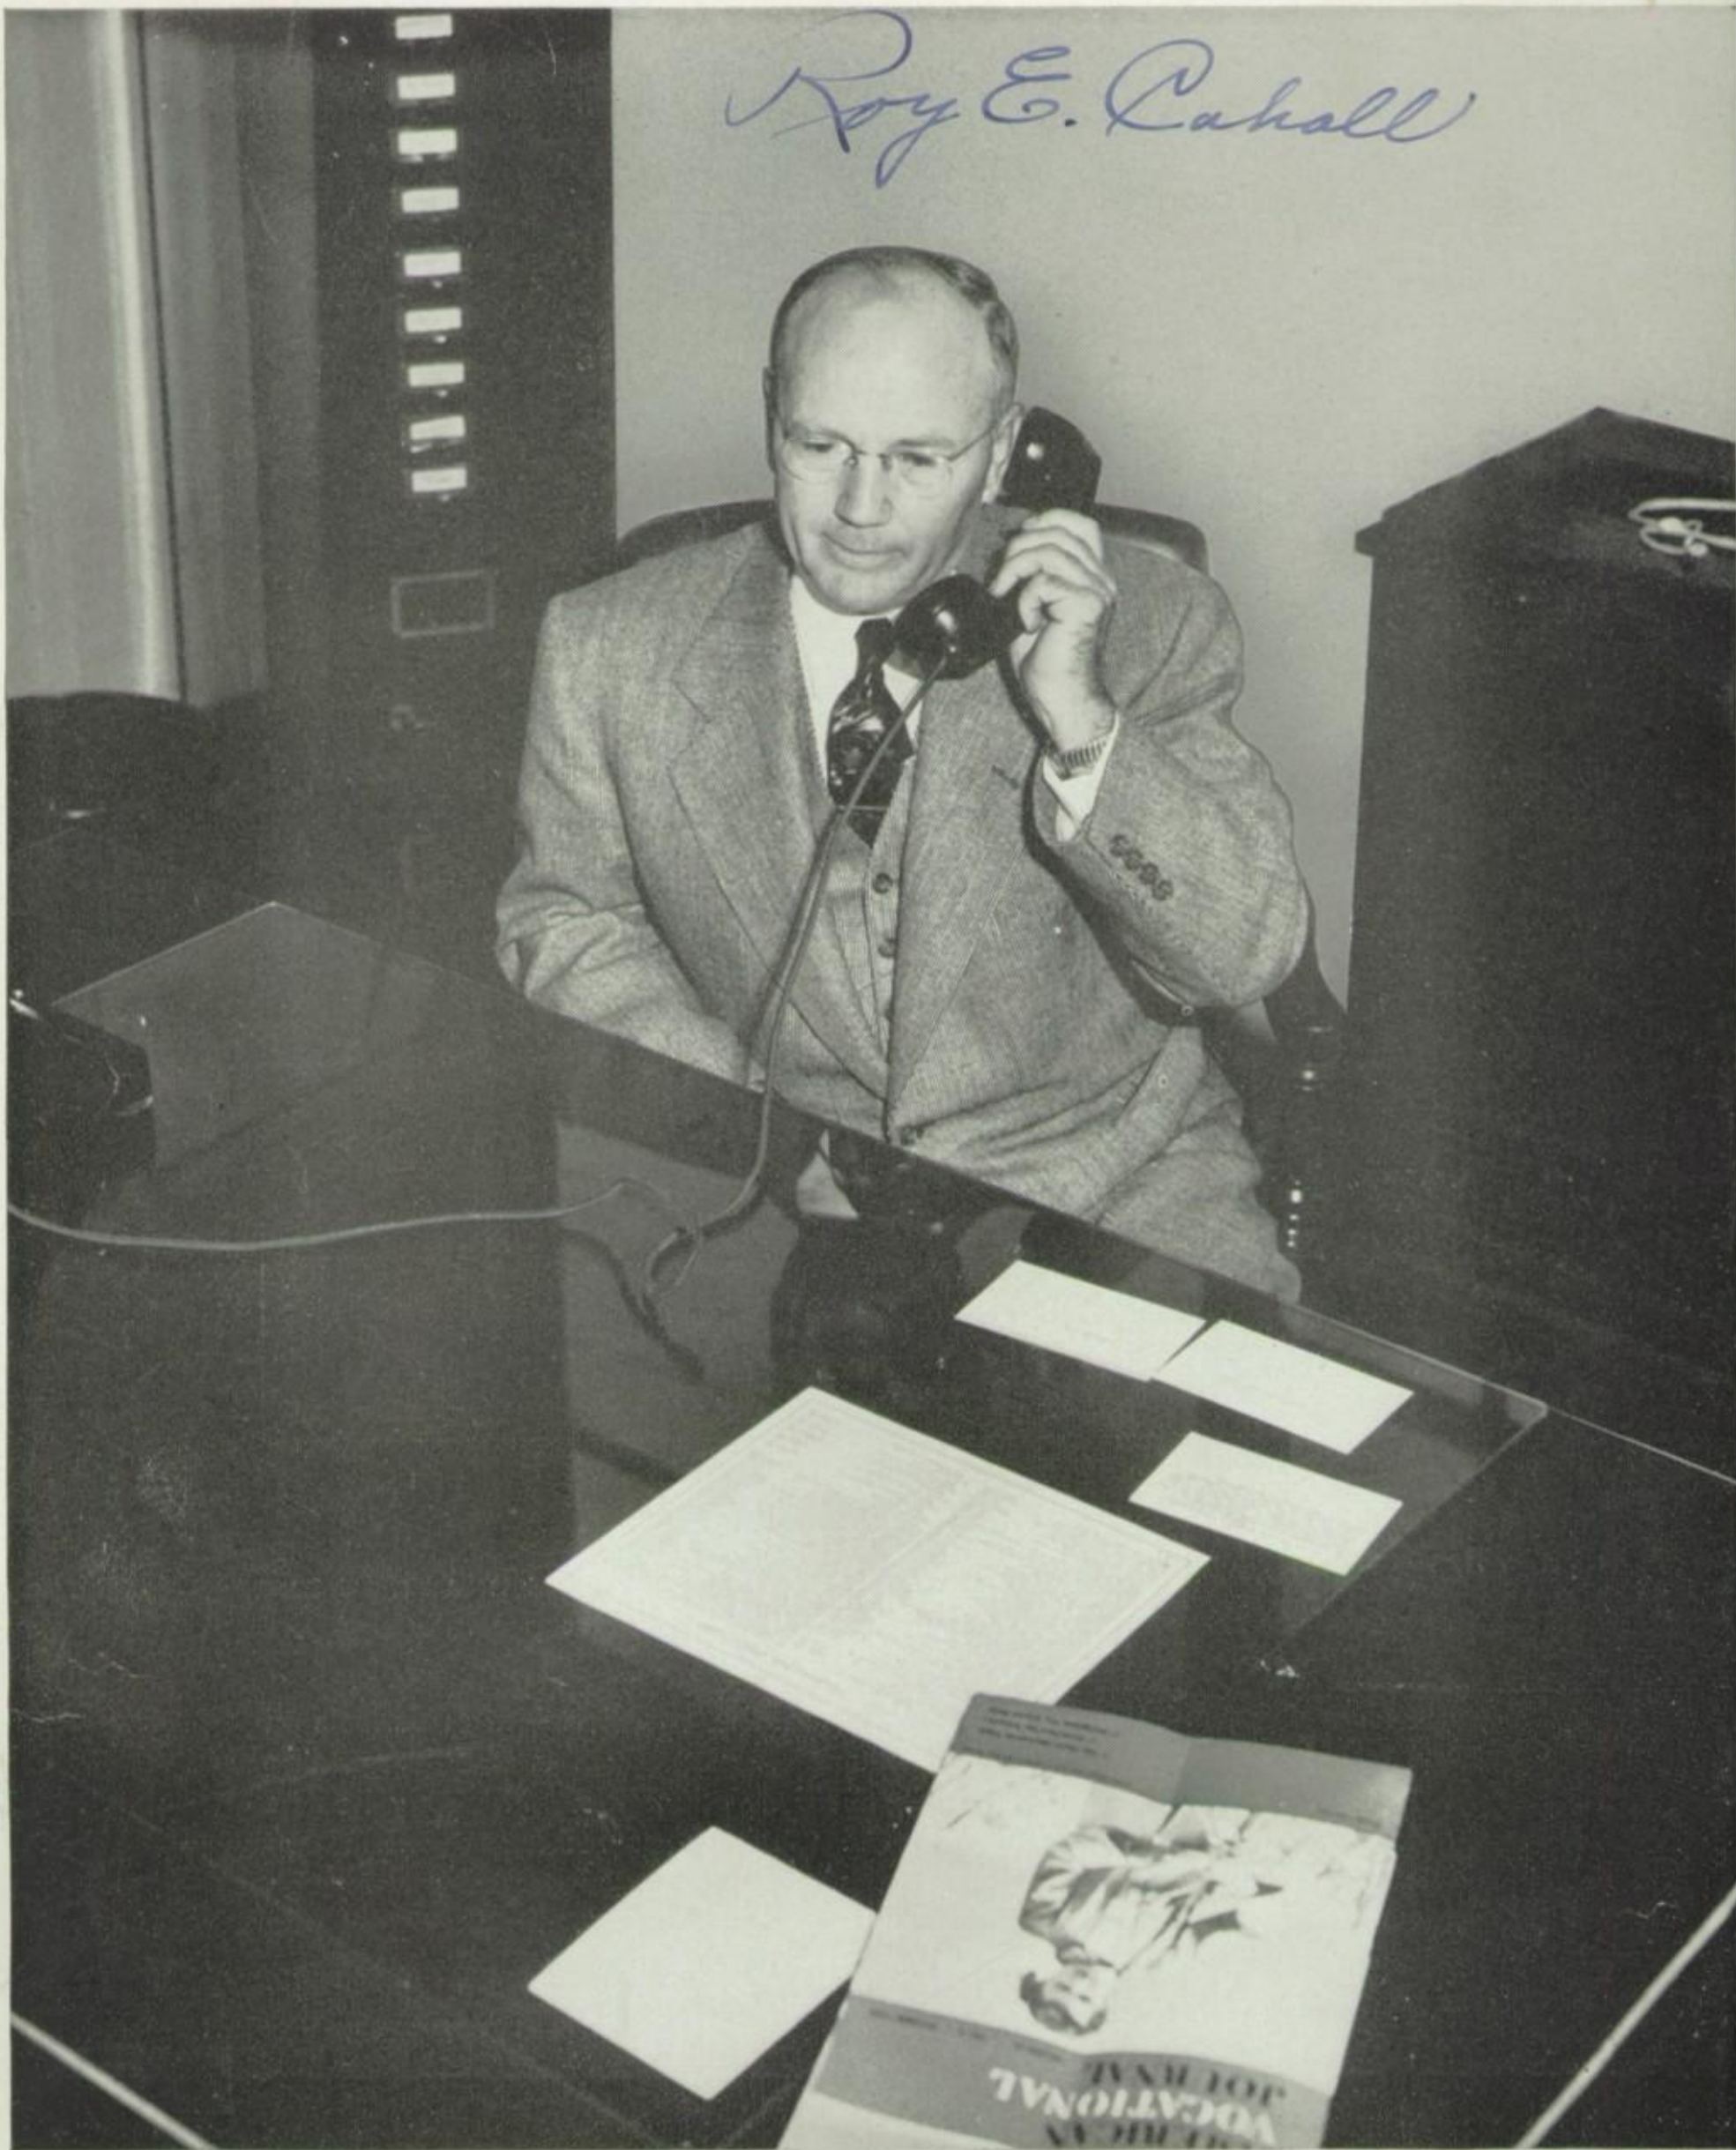

DEDICATION

To Mr. Walter M. Brunzman in sincere appreciation of his years of service to the students in vocational education, we respectfully dedicate this volume.

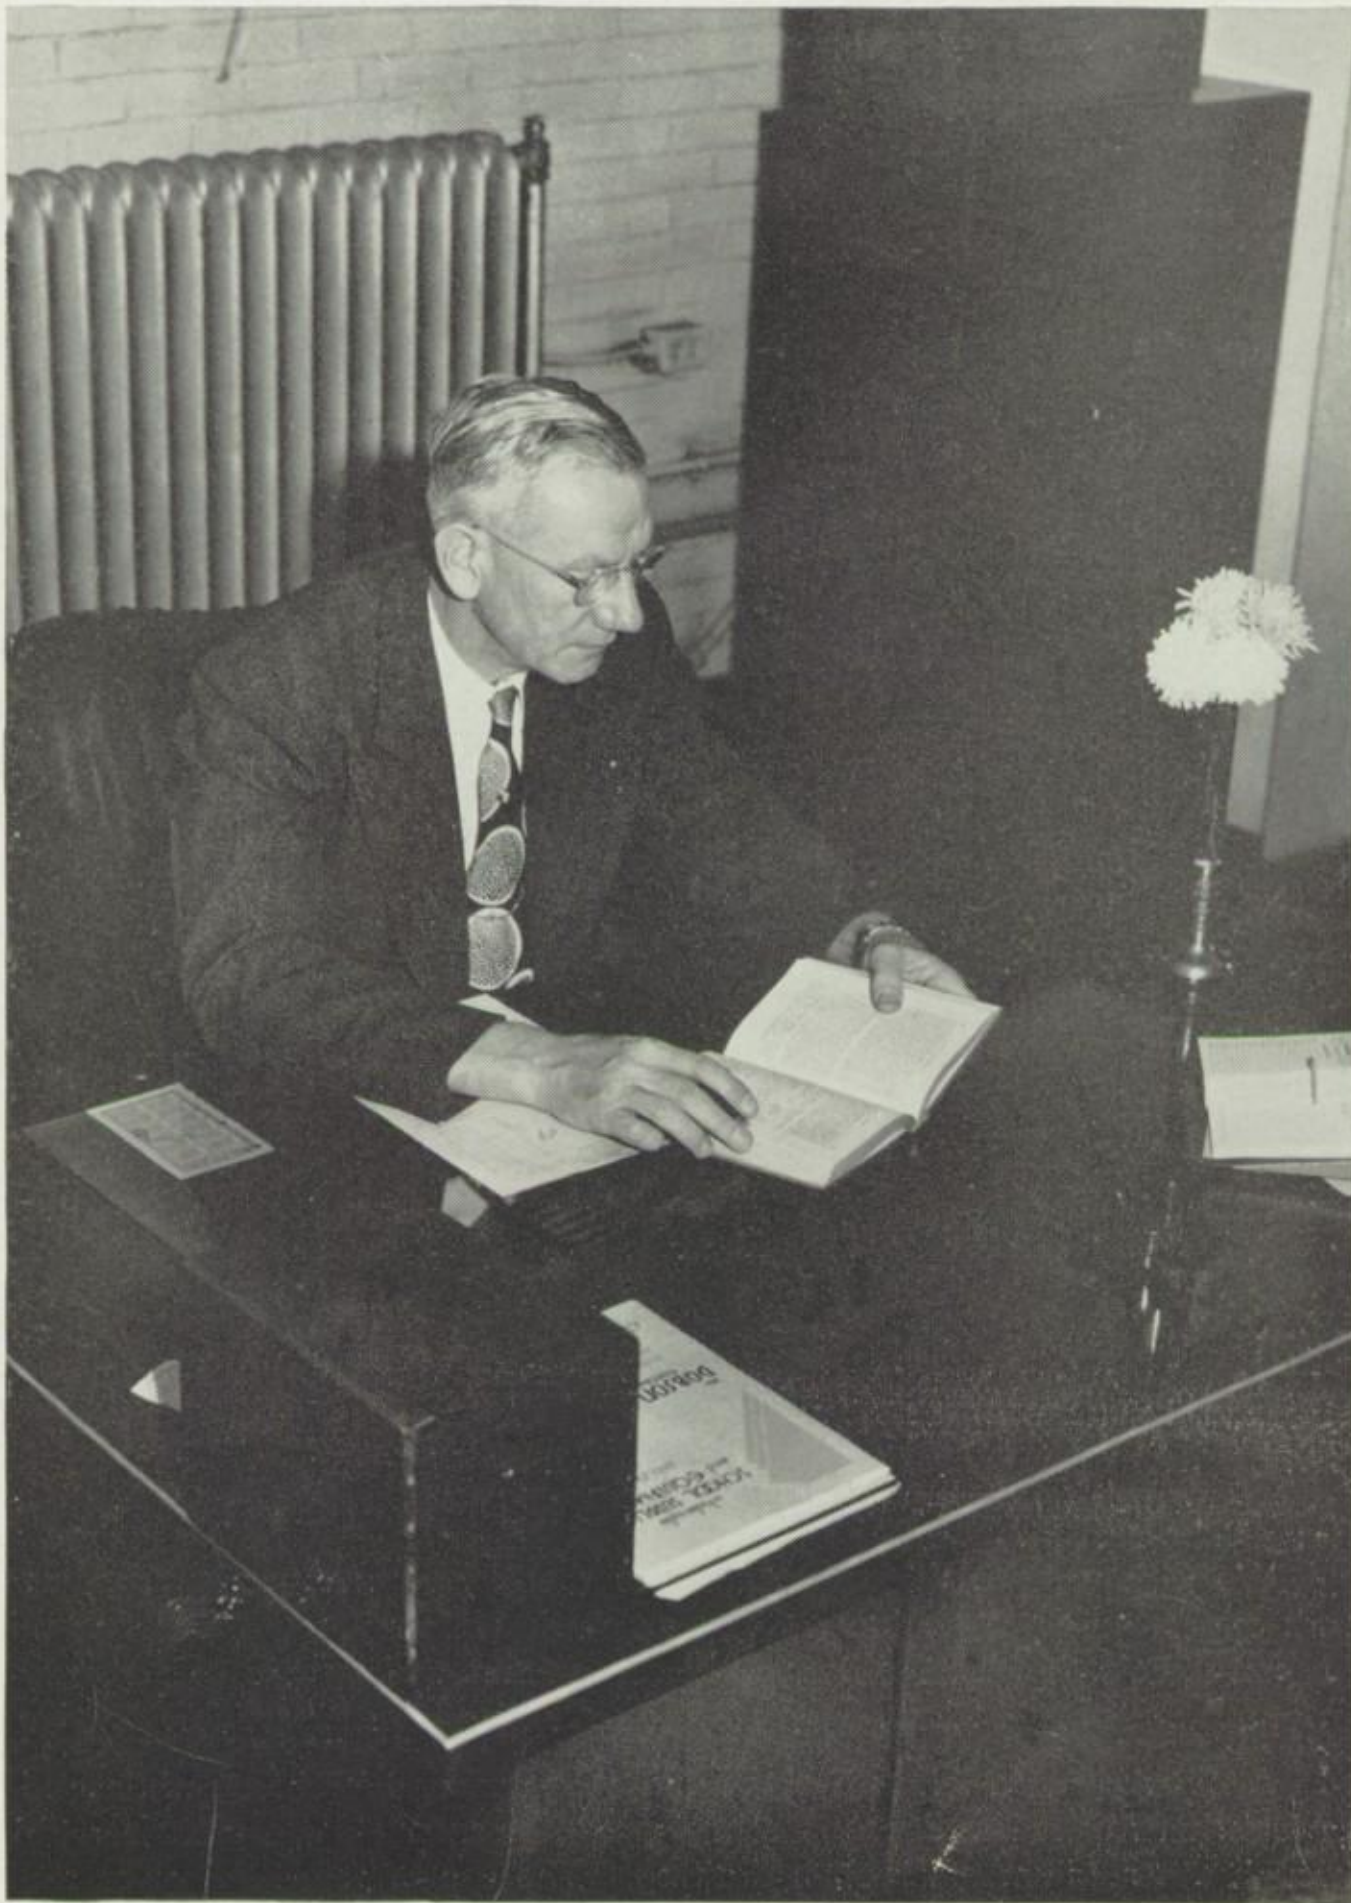

Mr. Brunzman became a teacher in the vocational high schools in 1923. He has seen this type of education grow from a small beginning to the place it now occupies in the field of education. Not only has he made a valuable contribution in the teaching of mathematics through the years, but has added much to the cultural life of the school through the medium of music and the spoken word on the stage.

Not only is Mr. Brunzman a teacher, he is also an organist of note, having held the position of organist in several Cincinnati churches. He is also one of Clermont County's most noted agrarians.

WE THANK YOU

We wish to take this opportunity to thank Nylon Myers for the art work appearing in this volume. The art work of last year's Annual from the pen of Walter Moore gained wide recognition and we are indeed very fortunate in having Nylon Myers able to take up where Moore left off.

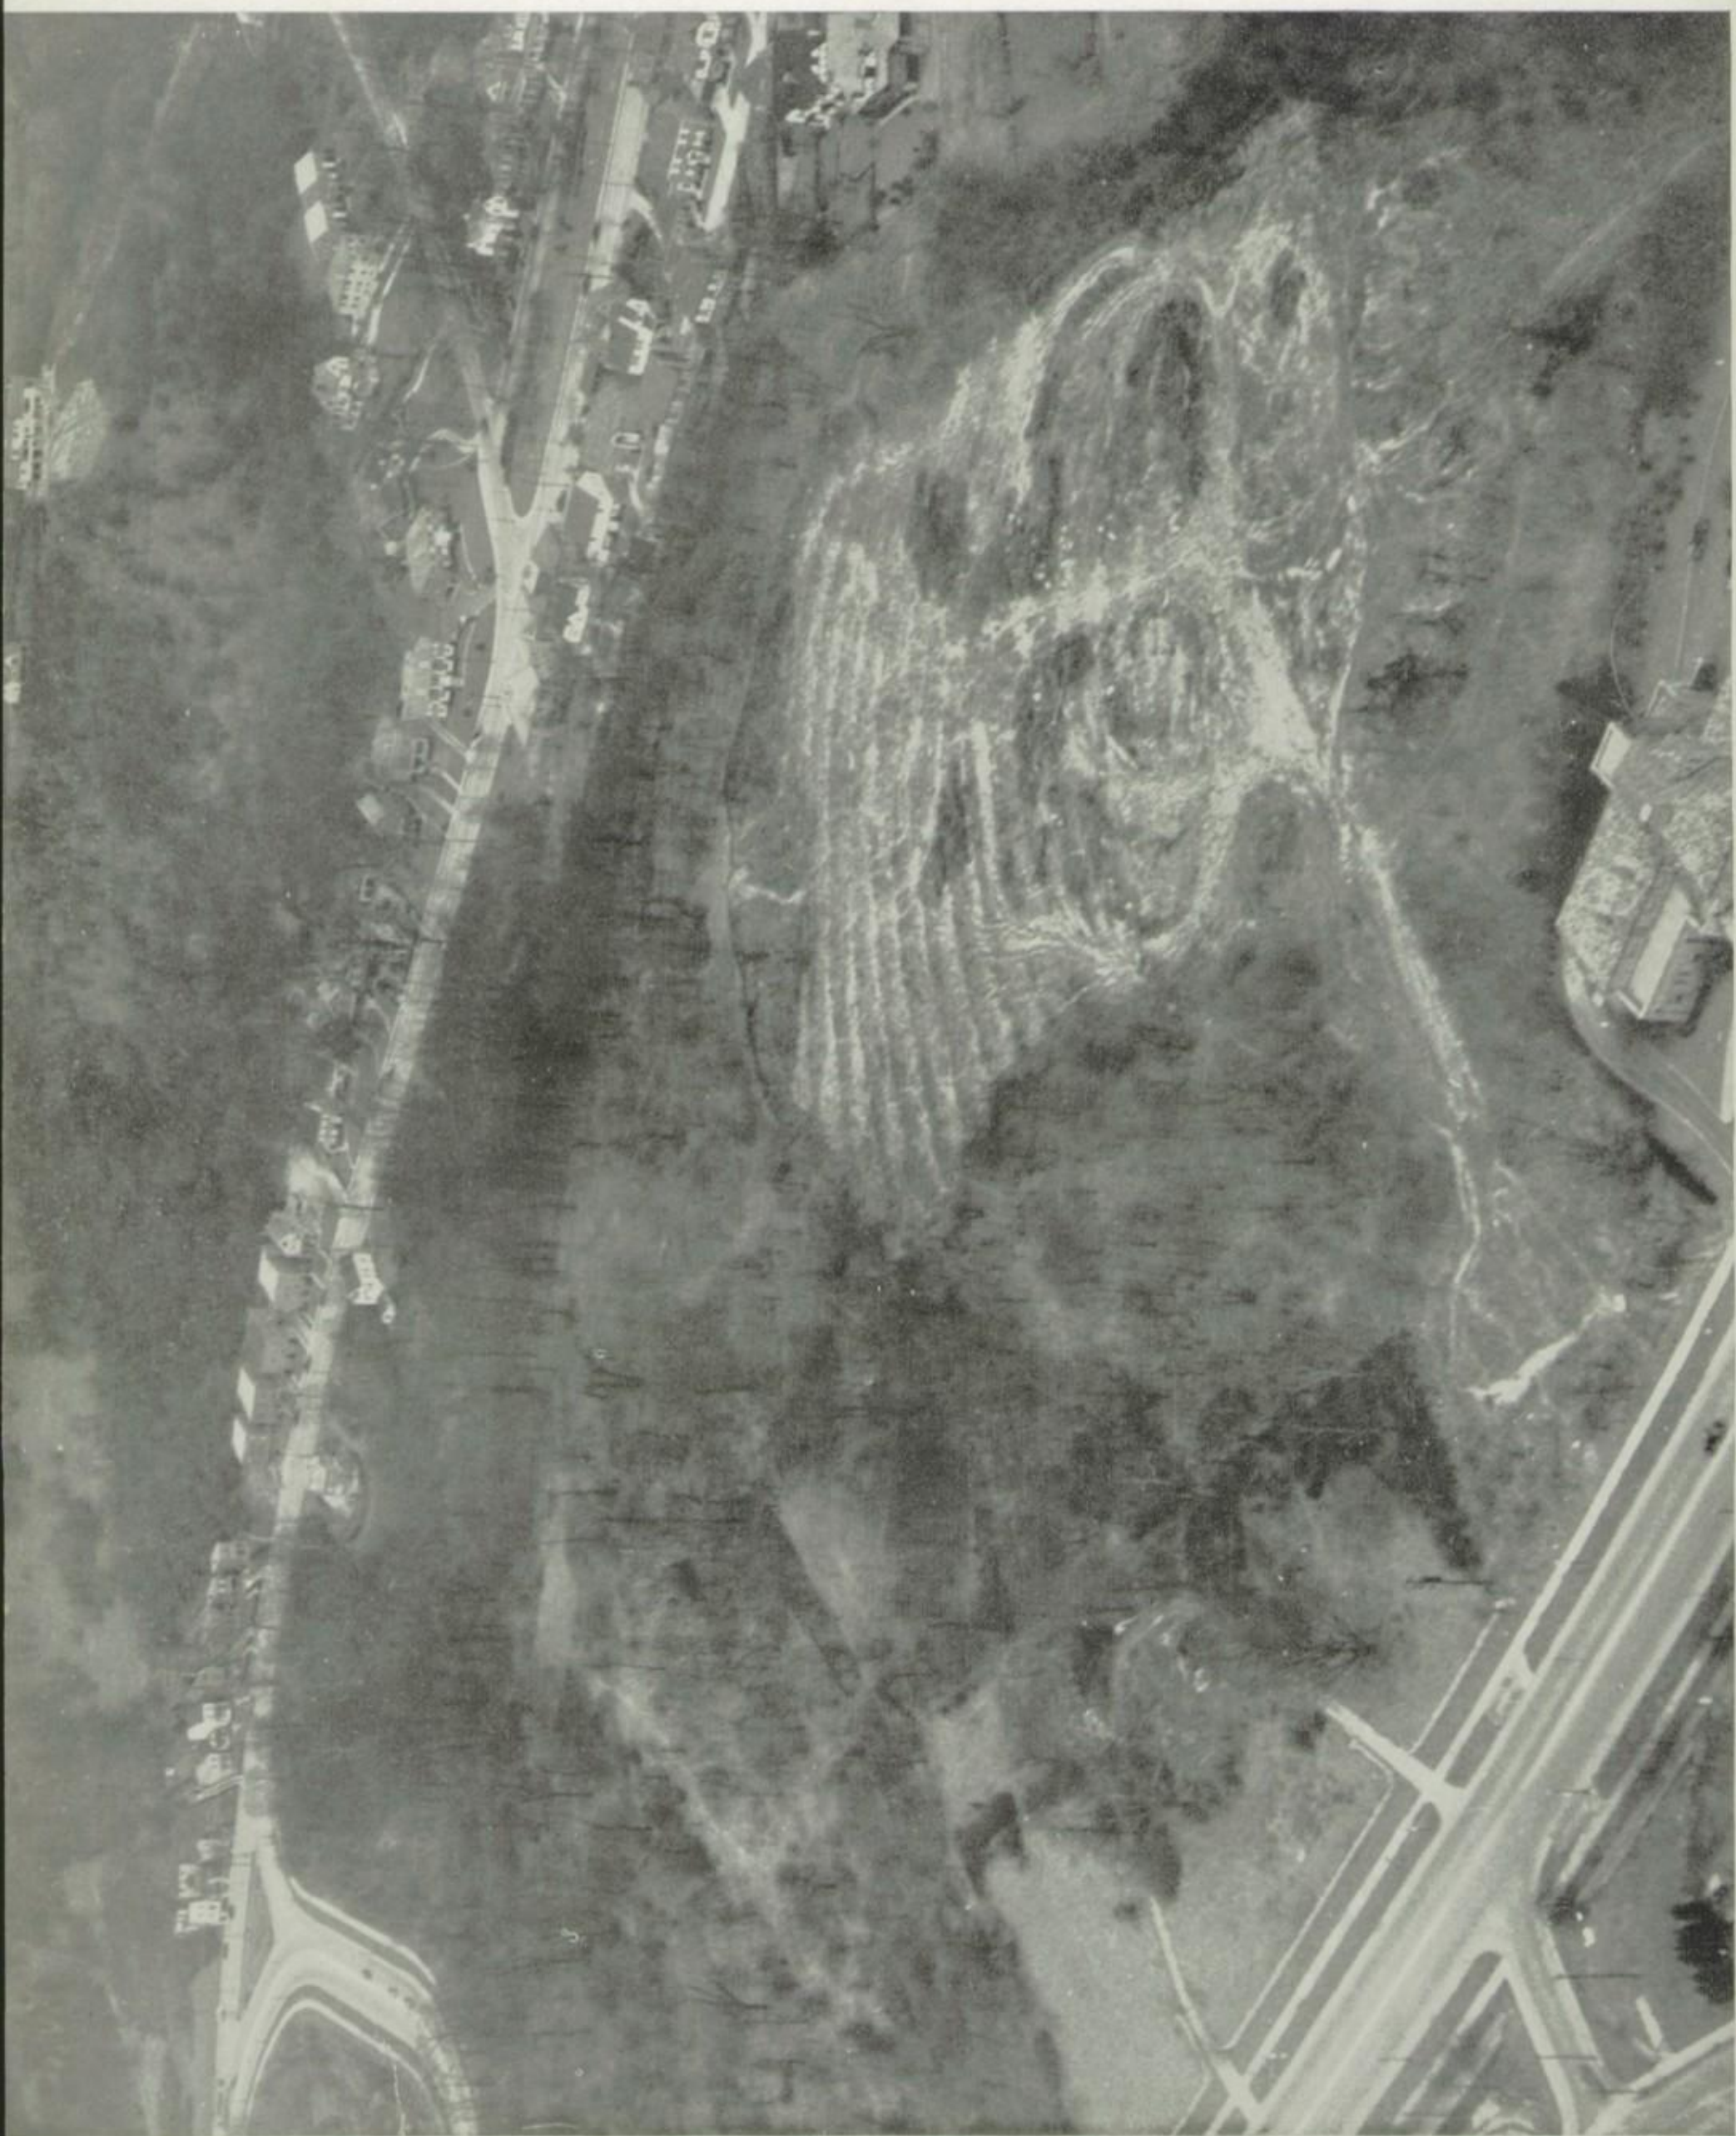

Art work goes a long way toward making an annual worth while and we feel that Myers has done his school and the senior class a great service through the medium of creative drawing. The use of television gives the book a decided modern, up-to-the-minute flavor.

CLOSER, EVER CLOSER

Believing that it will be of interest to our readers to follow the progress of our new building, we present, on the next two pages, an aerial view of the site as it appeared just after purchase and a group of views taken after the preliminary grading had been completed. The grading work was done during the summer and fall of 1947. The purchase price of the site was \$150,000.00, and the cost of grading amounted to \$40,000.00.

It is planned that the school will occupy the site on the higher level which will give it a commanding view of the countryside. On the lower level, paralleling Ludlow Avenue, the athletic field will be located. As this is being written, January, 1948, the Board of Education has voted to proceed with the construction of an athletic stadium and it is hoped it will be ready for the football season of 1948.

JUNIOR TOWN MEETING OF THE AIR

On Monday, March 1st, 1948, a group of students from Central joined with students of Graphic Arts and East Vocational High School to present a program relating to vocational education in Cincinnati. This was aired on the "Junior Town Meeting of the Air" over Station WSAI at 8:30 P. M., by transcription. Such topics as proper housing, curricula, trade trends, and employment possibilities were discussed by a selected group of four young people; after which the audience composed of students from the various schools were permitted to ask questions from the floor. The questions were answered by the four students.

Picture number one on the opposite page shows Miss Mildred Herbert of East Vocational High School at the microphone, while those seated behind her are (left to right) Mr. Fred Harper, of WSAI, John Dawson, Richard Davis, Mr. George Palmer, of WSAI, moderator, and William Edwards. Dawson, Davis, and Edwards are Central students.

Picture number two shows Richard Davis at the microphone while Mr. Palmer, John Dawson, Miss Mildred Herbert, and William Edwards stand by.

Picture number three shows a question and answer period in which members of the audience asked the four young people various questions bearing on the subjects. Left to right are: Howard Frank, Miss Helen Seel of the Board of Education Central Office, Robert Schumacher, Thomas Wilkerson at the microphone, Harold Johnson, Robert Breitfelder, Don Rinthen, and Ernest Freudeman.

Picture number four shows Herman Turner leading in the singing of Central's school song to start the program.

PHILIPPINE EDUCATOR VISITS SCHOOL

During the month of February our school was honored by a visit from Mr. Maximo Songco, United Nations fellowship holder of Manila, Philippine Islands.

He was in the United States to study vocational education and guidance work in the public schools. Songco, who is in charge of Welfare Institutions for dependent and delinquent children in Manila, said there has been a rise of juvenile delinquency in his homeland since the war but that it now is on the decrease. He said that economic trouble was at the root of most delinquency.

Out of a population of 18,000,000 in the Philippines, Songco said, 3,500,000 children of school age go to classes regularly even though there is no law forcing them to attend.

Mr. Songco told us that the Philippines are proud of being America's democratic outpost in the East as well as being the only Christian country in that part of the world.

Pictured above left to right are Louis Kahn, native of the Philippines and a student at Central, Mr. Songco, and Mr. J. F. Arundel, Director of Vocational Education in the Cincinnati Public Schools.

SENIOR CLASS HISTORY

The time when the class of 1948 must leave Central is nearing. After spending four years together, we must disband and go our separate ways through life. But before we do this, let us look back upon our high school career.

In the autumn of 1944 we made our debut at Central. Our Hearts were filled with a mingled sense of joy, anticipation and no little nostalgia as we combined to form the freshman class at Central. Our self-confidence and ego were somewhat restored when we found we were no longer addressed by our first names.

In the course of the first year we learned that it takes both class room study of related academic subjects and practical work in the various shops to produce a well-rounded mechanic in any field. We also found out that boys from every section of cosmopolitan Cincinnati can be welded into a friendly, cooperative group.

When we became sophomores our position in the school was changed. We looked upon that year's crop of Freshies with a bit of disdain. Many of us joined the various athletic teams, musical organizations, and clubs of the school. By the end of our second year we had explored the possibilities in the five major fields of endeavor which are offered by the school program of training.

The next year we were advanced to the rank of Juniors. It was then that we had to decide into which field we would enter. We had a choice of Automotive, Aviation, Machine Tool, Wood-Work, and Electrical. Many of our number made their presence felt in the club life and on the field of athletics of the school.

The height of our glory was not reached, however, until we became Seniors. It was then that we felt that we were lords of the school, and in spite of harder school work, we enjoyed our position very much. We discovered that teachers are pretty nice people after all and that even the "DT" has a real value in the struggle to make men of us. Some of our class, as members of the Cross Country and Track Teams, helped to bring the first athletic championship to Central. Others of our number, as members of the baseball, basketball, and football teams, helped to turn in outstanding performances. One of our members is an excellent rifle shot. Humbly, we feel our class has hung up some records which will serve as marks for future students to shoot at.

At the end of this year two roads will be opened before us. We can either go on to schools of higher learning or immediately enter upon our chosen life work. Whichever may be our choice, the days spent at Central shall live as fond memories for us as long as time shall last.

Dr. Joe Z. Blow

SUCCESS

It isn't the book that is written
It isn't the picture that's drawn,
It isn't the field that is planted
Ant it isn't the log that is sawn —

It isn't the rock that is chiseled,
It isn't the tower that is raised,
It isn't the work of imposing mien
That should be especially praised —

It's the use a man makes of the tools at his hand,
And if they be many or few,
And if a job gets the best that he has
When less than the best would do;

For some have advantage of training,
And some even start with a name,
While others must plod along on the sod
Forever unfavored of fame.

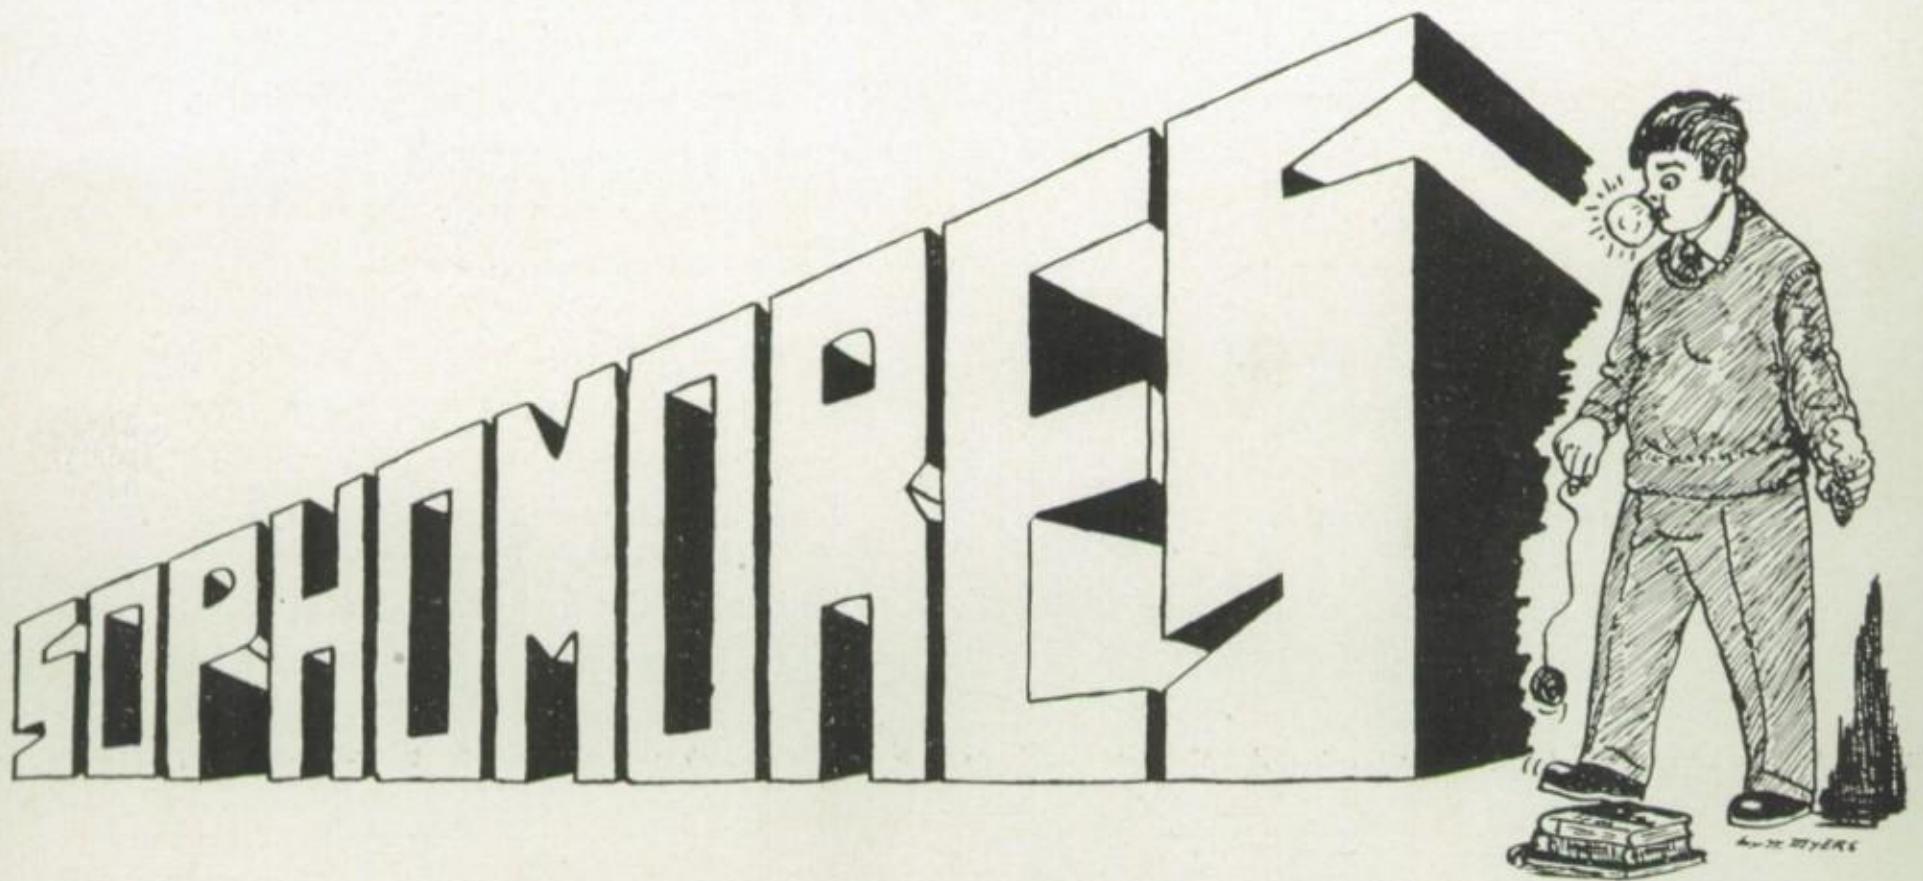

How else can true merit be rated,
Or the weak with the strong compare,
Except allowance is somehow made
When the tortoise races the hare?

And so, at the last great Audit,
When the records of Life are scanned,
It won't be the size of the job that counts —
But the JOB WITH THE TOOLS AT HAND.

THE COORDINATORS

The Coordinators are in charge of student placement under the co-operative plan of education which forms the keystone of the arch upon which vocational education is founded. Under this plan students in their senior year have the opportunity, and are urged, to attend school two weeks and work in the field of their choice for the alternate two weeks. They receive the prevailing rate of apprentice wages while working. They are required to attend nine weeks in the summer of their senior year in order that they may not lose out on formal school training.

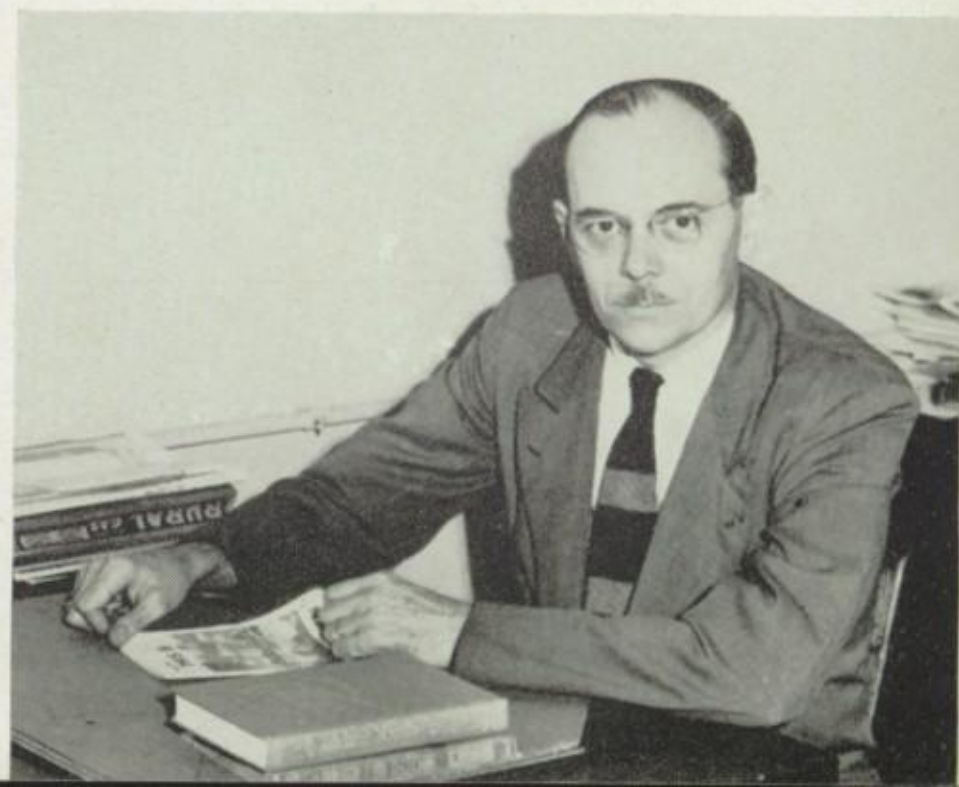

Guidance and placement are so skillfully handled by the coordinators that a goodly number of the students placed in the various fields "take root" so to speak and remain to make it their life's work. The coordinators also do a splendid piece of work in acquainting industry with what the school can do for them through co-ops, and keep the school posted on new developments in industry.

This year the "Craftsman" has seen fit to go out into industry to find action pictures of our co-ops on the job.

COUNSELOR

Not the least important is the job of School Counselor. This is the liaison between the school and home. Mr. Deisenroth works in close co-operation with the homeroom teachers, and it is here that many personal problems of the students are solved.

THE THINKER
by
Berton Braley

Back of the beating hammer
By which the steel is wrought,
Back of the Workshop's clamor,
The seeker may find the Thought;
The thought that is ever master
Of iron and steam and steel,
That rises above disaster

And Tramples it under heel!
The drudge may fret and tinker,
Or labor with dusty blows,
But back of him stands the Thinker,
The Clear-eyed man who knows;
For into each plow or saber,
Each piece and part and whole,
Must go the Brains of Labor,

Which gives the work a soul!
Might of the roaring boiler,
Force of the engine's thrust,
Strength of the sweating toiler,
Greatly in these we trust.
But back of them stands the Schemer,
The Thinker who drives things through;
Back of the job, the Dreamer,
Who's making the dream come true!

BOYS' WEEK

BOYS' WEEK

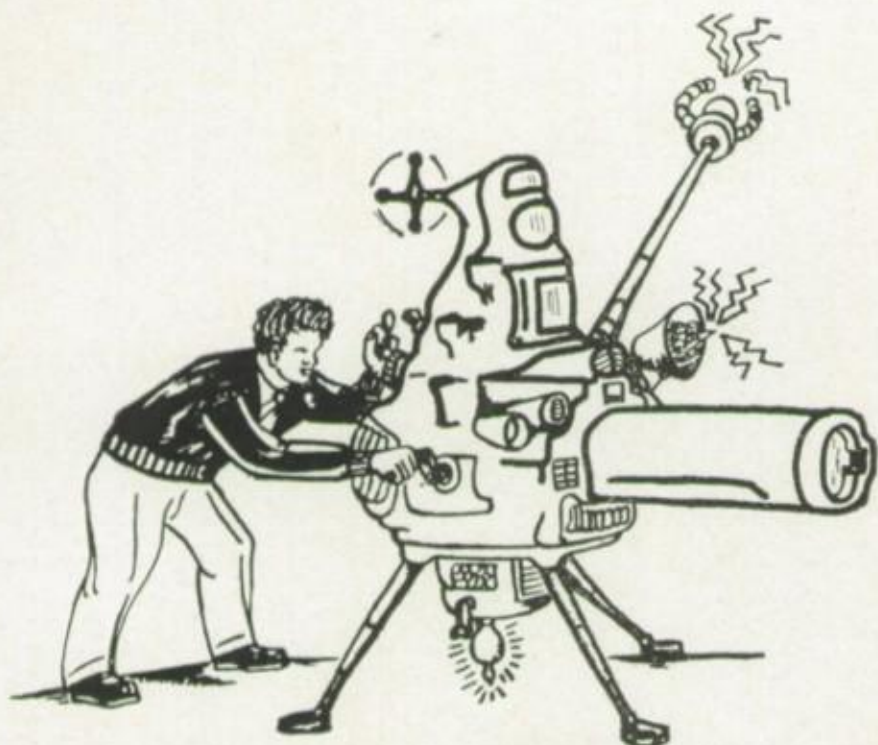

Every year Central participates in Boys' Week by sending a boy to City Hall to compete with other candidates of the public and parochial schools of Greater Cincinnati for the coveted nine seats in Cincinnati Council for one day.

Central chooses its representative by popular election, following a week of campaigning by the nominees and the campaign managers. The candidate-elect is then sent to City Hall, to meet with the representatives of the other schools. Each senior high school candidate then gives a speech on what he would do for the city if elected mayor. Pupils from junior high schools are the audience, and in turn, elect the nine council members to serve on the appointed day.

This year, sixteen schools competed for the honor of having their boy elected to City Council. Bill Edwards was the representative elected from Central to attend the meeting, and had the honor of being one of the nine boys elected to serve on Council.

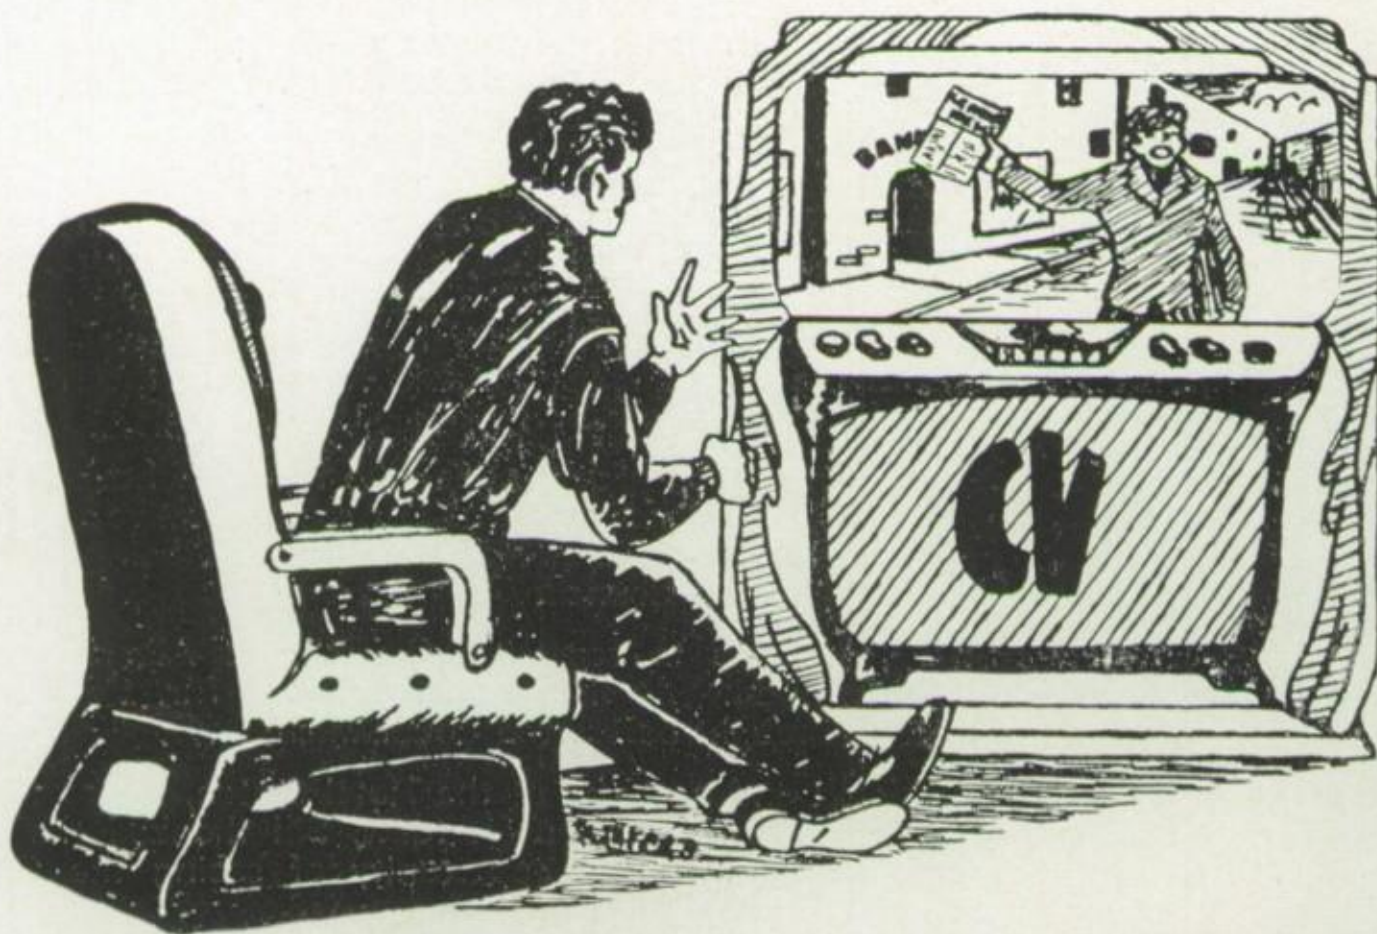

It was Bill's privilege to represent Councilman Albert Cash, now Mayor Cash of Cincinnati. At the Council meeting Mr. Cash discussed with Bill the matters brought before the Councilmen.

After a luncheon and a dinner at the Hotel Sinton, where the candidates to Boys' Week Council gave short talks, Bill thanked the sponsors for affording the young men the opportunity of seeing the Cincinnati government at work.

A BRIEF HISTORY OF THE ART SOCIETY

During the first year of Central's inception, there was felt a strong need for an Art Society. Yes! Even before Central was assembled from the several unit vocational schools, these schools had an appreciation for art, since their graduating classes had bought pictures.

On June 8, 1943, the present Art Society was formed by a group of freshmen from Room 436; and under the leadership of Mr. Wagner, these boys had accumulated a class treasury by various school enterprises and a skating party. After enjoying a field trip to the Columbia Power Plant, the class had its annual picnic at Columbia Park. Since this picnic did not deplete the entire fund, a committee composed of Durwood Brug, Martin Follic, Don Tilton, and Jack Trimpe, all of '46, decided to donate one-half of the remaining fund to the American Red Cross and the other half to the formation of an Art Society. The class unanimously voted in favor of the committee's recommendations.

Even though the nucleus of our fund was small, \$16 to be exact, it was bolstered by contributions each year during American Education Week. This method of raising funds was used for several years; but we found that in three years, we hadn't enough cash to buy one original oil. So in December, 1946, Mr. Cahall gave his approval to a plan to have a representative in every home room, which forms our present organization.

Roughly speaking, within the calendar year, 1947, the Art Society has decorated the walls of Central with several very nice prints, a wood inlay, and three original oils. The program covers were bought by the Society. Two movies, "Mutiny on the Bounty" and "The Mighty Tribe of Arizona" were sponsored by the society. Many other projects are under way at this writing, along with the purchase of a "Marine" by Fred Pye and one of Glen Tracy's Circus originals in oil. We also have the promise of Sid Gilman, Miami U. Coach, to show the Sun Bowl game.

On December 4, 1947, the group of room representatives visited the exhibits of our local artists at the Art Museum. On January 16, the jury of selections, composed of Guy Hall, Richard Kroeger and Kenneth Huey, visited the exhibition of local commercial artists at Pogues. The jury also visited Loring Andrews Galleries on two occasions, also meeting the artists, Pye and Tracy.

THE COACHING STAFF

We present the men responsible for the School's athletic and physical education program. They are, left to right, Mr. Fred Yeager, Mr. Art Reisner, Mr. Howard Sams, Mr. Bob Cheeseman, and Mr. Carl Schmidt.

MR. FRED YEAGER

MR. ART REISNER

A TRIBUTE

The Craftsman wishes to take this opportunity to make mention of the outstanding work and achievements of two of our athletic coaches.

We shall mention Mr. Art Reisner first only because his success came chronologically ahead of those of Mr. Fred Yeager. After the Annual went to press last year, the Track Team finished a very successful season by winning the District Championship at Withrow Stadium to give our school the **first** championship team in any sport. Just to show that this victory of the boys in "breezie britches" was no flash in the pan, our Cross Country Team came back last fall to win both the City and District Meets to bring another championship team to the school. Under the fine and patient coaching of Mr. Reisner, the boys, imbued with a winning spirit have brought signal honor to the school.

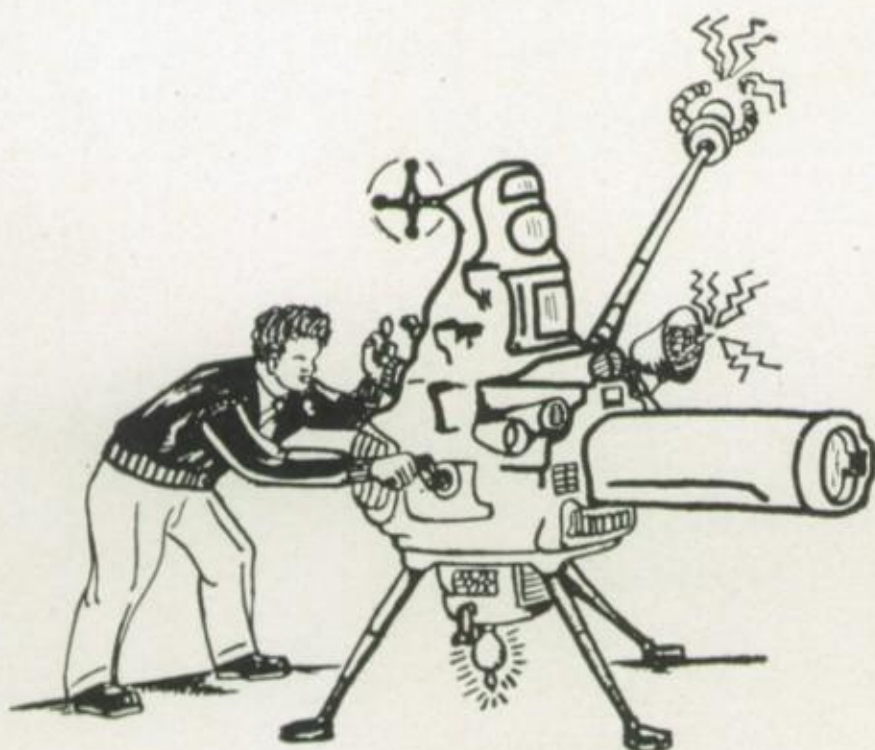

None the less important in achievement and honor to the school was the splendid showing of our football team last Fall when the boys in scarlet and grey accumulated a record of eight wins to one loss to finish in the runner-up spot in the High School League. Our boys gave such teams as Hughes and Western Hills a chance to eat a little dust for a change. To Freddie Yeager must go the credit for inspiring his boys to such valiant effort.

To both of these men we say, "Our school owes much to you."

THE FOOTBALL SEASON

Under the able leadership of Coach Yeager and the assistance of Coaches Schmidt and Cheeseman the football season was the most successful in the history of Central. The season's summary follows.

Central 14 Seven Mile 0

As a lid lifter the Hornets turned back the Butler County boys by not too impressive a score. However, the season was on.

Central 12 Hughes 0

Playing on even terms for the first half, our boys got started in the second half and took the measure of Hughes. Our boys began to show great promise.

Central 6 Withrow 35

Fortunately for Withrow, this game was played early in the season. In the light of future happenings, we feel we could have beaten them later in the season.

Central 31 Plainville 6

The Hornets pushed the Blue Devils around rather roughly and most of our subs got into the game.

Central 19 Hartwell 0

The Hartwell Warriors were all set to avenge past beatings but the Hornet tide was too strong. The last half became a rout.

Central 12 Woodward 0

The Hornets merely added another cup of sorrow to the Bulldog's forlorn season.

Central 6 Walnut Hills 0

After a knock-down struggle with the determined Eagles for three quarters, our pass offense clicked and this one was in the bag.

Central 29 Oxford Stewart 0

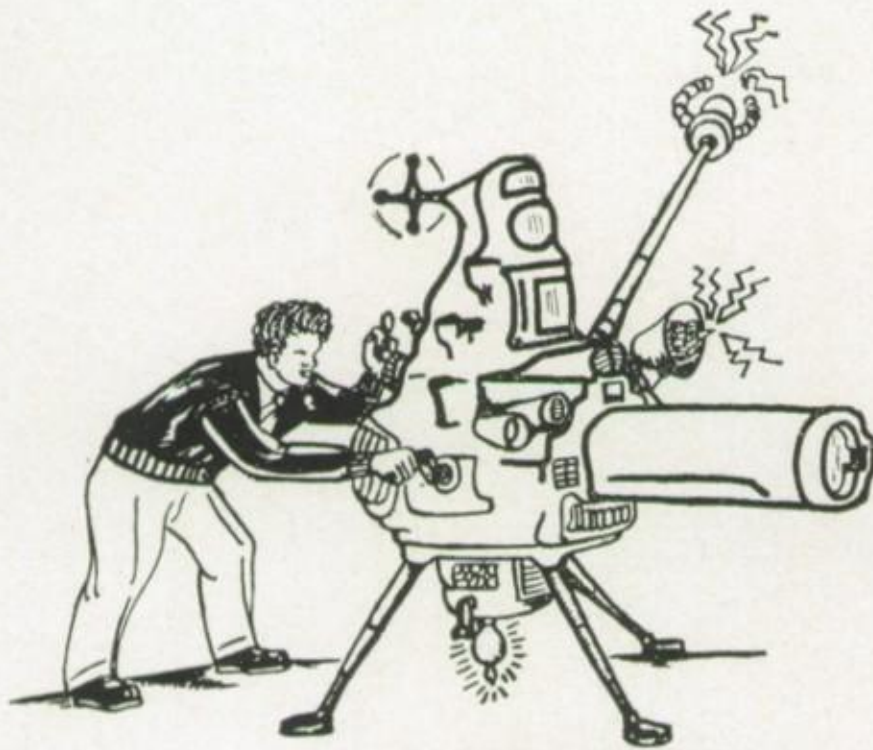

Our boys breezed to victory rather easily over the up-staters. It proved to be just a warm-up for next week.

Central 13 Western Hills 6

What amounted to one of the major upsets of the season took place on a rain-soaked gridiron for the last game of the season. Our teams learned one valuable thing this season, such teams as Hughes and Western Hills can be beaten. Withrow papers please copy.

HAIL TO THE CHAMPS

Central's fighting track men (pictured above) made history in May, 1947 when they won the District Track Meet at Withrow Stadium. This was the first time in Central's history that a team in any sport had won a district championship, and, it is hoped that this is the forerunner of other championship teams. We wish to take this opportunity to express our appreciation to the boys of the team and to Coach Reisner for their splendid work throughout the track season. Records of the district meet and team standings follow:

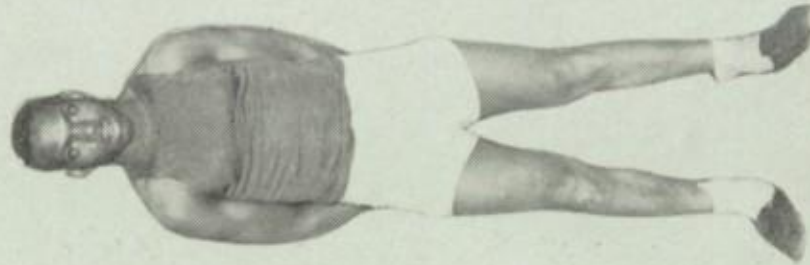

Jones, 2nd, high hurdles
 Turner, 3rd, 440-yd. run
 Meyers, 5th, 440-yd. run
 Myers, 5th, 440-yd. run
 Dunham, 2nd, mile run
 Carpenter, 1st, 880-yd. run
 Collins, 2nd, discus

 Tonges, tie 3rd, pole vault
